VINEYARD

The Sparkling Sauvignon Blanc is grown in a variety of vineyards with a range of soil types including gravels, silt and clay loam. The different characteristics of these sites provide depth and complexity of flavour in this wine.

WINEMAKING
NOTES

After harvest at optimum ripeness the fruit is gently pressed, then cool fermented in stainless steel tanks. Post ferment, it is left for a short period on gross lees to develop texture and mouth-feel. It is then blended and bottled while young and fresh. Prior to bottling the wine is chilled down and carbonated. It is this carbonation that provides the lively, refreshing bubbles.
